MEX

## A NEW LOOK

The revamped MEX app is here! With a new modern, user-friendly interface and smarter login features.
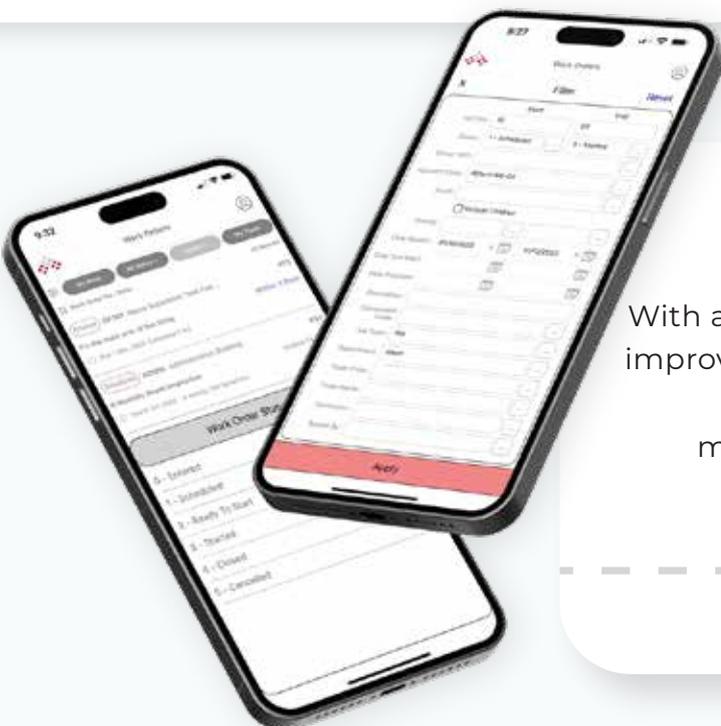

Add on the new enhanced user management features and an always connected approach, tradespeople and storemen can easily manage:

- ✓ Work Orders
- ✓ Job Requests
- ✓ Inspections
- ✓ Stocktakes
- ✓ Readings

A NEW FLOW

With a brand-new interface, intuitive navigation, an improved sorting function and enhanced searching capabilities, MEX allows you to focus on what matters most - getting the job done efficiently.

SMARTER LOGIN

Managing users and improving the login experience took a front seat. We introduced a better way to setup users inside MEX. Users will be able to get access to the app from a simple email or text, enter in the code and away you go.

Smarter User Setup

It's as simple as sending an email or SMS which will allow them to download the app and connect all in one go.

Code Access

The user setup process has been streamlined to make it more intuitive and user friendly, allowing you to get started quickly and easily.
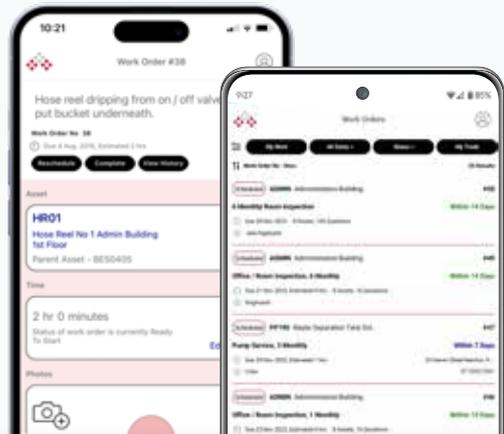

Biometric Login

Enjoy added security & convenience with Biometric login, simplifying access to the app while maintaining industry standard data protection.

NETWORK CONNECTIVITY

Please note that the MEX app requires an active internet connection to function optimally.
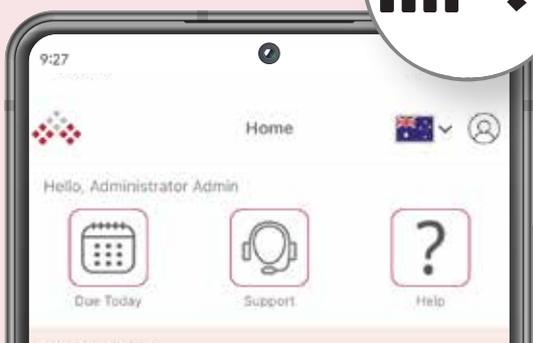

Being always online ensures that you have access to the latest data and can collaborate seamlessly with your team.

AVAILABLE ON APPLE & ANDROID

The new MEX app will be available on both Apple and Android platforms, catering to a wide range of users and devices.

MAIN MODULES

MEX is set to become your go-to tool for managing work orders, inspections, job requests, stocktakes and readings

Work Orders & Inspections

Manage and track work orders and inspections effortlessly, ensuring your tasks are completed on time and in compliance with safety standards.

Requests

Submit and track job requests with ease, facilitating smooth communication and task allocation within your organisation.

Stocktakes

Keep a close eye on your inventory with the stocktakes module, enabling you to maintain optimal stock levels and reduce downtime.

Readings

Monitor equipment and asset readings, ensuring everything is operating within desired parameters.

Edit Mode

Easily customise MEX with Edit mode. Allowing admin users to edit security, set mandatory fields, change names & add custom fields.
