FleetMEX 30 YEARS

OUR SPECIALITY.

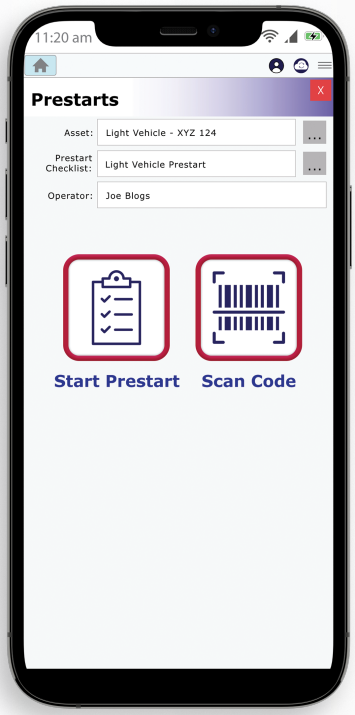
FLEET CMMS

For 30+ years, MEX has been delivering measurable results to vehicle-intensive businesses, remaining at the forefront of the maintenance industry by utilising the latest tools, techniques and ideas.

With the trust of over 12,000 users worldwide, MEX has maintained a diverse range of industries including mining, manufacturing (light and heavy), food processing, hotels, resorts, hospitals and government.

FIND OUT MORE

SMART MAINTENANCE MANAGEMENT.



For over 30 years, we've been refining our FleetMEX CMMS to make your life easier. FleetMEX helps you perform maintenance work smoothly and effectively. Its straightforward yet powerful maintenance modules excel in many areas, making it a great aid for organisations big and small. Not only does it help maintain an up-to-date vehicle register and manage vehicles throughout their life cycle, but it's also useful for taking care of your facilities and other equipment.

With comprehensive work orders capturing tasks, trades, spares, documents and more, FleetMEX is a powerful tool for managing maintenance activities and streamlining operations. FleetMEX also features robust preventative maintenance and inspections capabilities, enabling users to stay ahead of potential issues and ensure that vehicles remain in top condition.

One standout feature is the Prestart checks available through the MEX App. This feature guides you through a series of checks to ensure safe operation and spot any faults that need immediate attention. You can easily create maintenance requests or work orders in FleetMEX, so your maintenance team knows exactly what issues need fixing.

Best of all, FleetMEX can be tailored to meet your specific needs and workflows. In short, it provides a wide range of features designed to boost your vehicle management, maintenance, and operational efficiency.

CMMS. BENEFITS.

VERSATILE CMMS SYSTEM

MEX's versatility makes it suitable for a wide range of industries & applications. Implementation can be as basic or complex as the user intends it to be.

EASY TO IMPLEMENT

The FleetMEX CMMS is an easy to install maintenance system that can be up and running in minimal time and once set up, FleetMEX requires minimal administration.

BUILT IN PRESTARTS

Equipped with an effective Prestarts module, FleetMEX allows you to carry out all the important checks you need to do before operating your vehicles.

REPORT EFFECTIVELY

With over 200 reports & 99 KPI charts, gauges, and graphs. FleetMEX gives you the tools to get a clear overview of your Fleet's maintenance regime, making it easy to identify procedural flaws.

QUALITY PRODUCT SUPPORT & TRAINING

We pride ourselves on fostering a customer-centric culture that places a strong emphasis on providing top-notch customer service, comprehensive support & effective training.

MOBILE SOLUTIONS

Monitor the state of your operations at all times, increase organisational visibility and seamlessly maintain a paperless maintenance environment with the FleetMEX app.

CLOUD. SECURE. MOBILE.

With our App, you can easily carry out inspections, prestarts, work orders, order parts, and capture readings on the go. No more cumbersome paper forms or manual data entry. Everything is conveniently accessible through the app, making your workflow more efficient and productive.

What's even better, if you choose to, FleetMEX can be hosted in the Azure cloud, providing you with a secure and reliable platform. You can access your data anywhere, anytime, with peace of mind knowing that it is protected by the latest in firewalls and certifications. Your data is backed up and disaster recovery measures are in place to ensure business continuity and minimise downtime.

With an impressive uptime of 99.9%, we keep your operations running smoothly without interruptions. Say goodbye to costly delays due to system downtime or technical issues. MEX is designed to be reliable and available whenever you need it.

MAIN FEATURES.

Vehicle Register

The focal point of FleetMEX. Obtain unparalleled insight and visibility into your Fleet, as it provides a comprehensive repository of detailed and exhaustive information and history for each individual asset.

Work Orders

With the ability to add, edit, print, complete, and sign off work orders, FleetMEX provides a comprehensive platform for managing all aspects of asset maintenance and repair.

Work History

A complete record of all the work you've done through the system. Information can be recalled at any point for analysis and reporting.

Preventative Maintenance

Manage all of your repetitive maintenance tasks associated with your assets. Generate periodic work orders based on either time-based or usage-based frequencies, proactively schedule and manage maintenance tasks, ensuring that your assets remain in optimal condition.

Inspections

Whether you prefer using a hand-held device, a paper checklist, or a combination of both, Inspections provides you with the tools to easily perform daily checks and tasks with unparalleled flexibility and ease.

Readings

Readings are a crucial aspect of managing the performance of your assets in FleetMEX, providing a collection of valuable analytics obtained directly from your equipment.

Prestarts

Capture all Prestarts carried out on your equipment and ensure all results are recorded. Images are captured and all readings are sent straight through to your FleetMEX System.

Reporting & Dashboard

By leveraging the reporting capabilities of FleetMEX, you can gain valuable insights into your asset management practices, track maintenance performance.

Maintenance Requests

Submit work requests into FleetMEX, which can be converted into Work Orders. Requesters can easily track the status of their requests.

OPTIONAL FEATURES.

*Purchased separately to standard MEX program

Ops Requests

Designed to simplify the process of submitting maintenance requests. Non-FleetMEX users can submit their maintenance requests online and keep track of their requests.

Stores

Stores offers a comprehensive catalogue of spare parts, along with purchasing features, enabling you to easily keep track of your inventory.

Regions

By using Regions, users can easily access and manage data for specific sites or groups of sites, without being overwhelmed by irrelevant information.

Timesheets

MEX Timesheets provides a highly efficient method for entering trade information and hours, enabling you to easily track employee work hours.

Contractor Portal

Stores offers a comprehensive catalogue of spare parts, along with purchasing features, enabling you to easily keep track of your inventory.

Prestarts Licensing

Available in bundles of 20, Prestart licensing permits non-MEX users to perform Prestarts on the MEX App without using a MEX License.

AUXILIARY OPTIONS.

FleetMEX

FleetMEX offers a range of auxiliary options to enhance your maintenance management capabilities, including a **Reports Editor** that enables you to create your own customized reports, a **Downtime Recording Module** for tracking and analyzing equipment downtime, an independent **Dashboard** for gaining valuable insights into maintenance performance, and a **range of customisation options** throughout the application, including the powerful "God Mode" feature.
