PRIORITISE SAFETY
Teams can carry out inspections and safety documents are accessed at the tap of a button.

GO PAPERLESS
Toss the paper out and start assigning maintenance tasks from the palm of your hand.

STAY INFORMED
Receive notifications wherever you may be. From job assignments to Purchase Order Approvals.

MEX FOR ANDROID
HAS DROPPED!

The new MEX App is packed full of features to make your life easier and manage maintenance tasks in the field.

SMOOTHER NAVIGATION
With a clear and concise structure & redesigned layout. Access Asset information and add work orders with ease.

SIMPLY SYNC AND GO
No network? No problems! The new App boasts automatic syncing capabilities to ensure your data is always up to date.

BARCODE + NFC READING
Use your camera or connect a Bluetooth device to scan & find maintenance information with upgraded scanning features.

SIMPLY SYNC YOUR DATA
TO CREATE, FIND & ASSIGN

You don't need to be connected to a network to get the job done.
Simply SYNC & GO!

CONNECT YOUR SYSTEM

Enter in the web address of your MEX System and you're on your way.

SYNC THE DATA

Select your syncing option (auto/manual) & download your data.

PERFORM YOUR TASKS

Take MEX on the road and continue maintaining even with no live connection.

CLOSE + UPDATE

When you are back in network range sync your updates back to MEX.

POWERFUL DASHBOARD

Access Dashboard Key Performance Indicators (KPIs) directly from your fingertips. Graphs, listings and gauges have all been added to the new MEX app, with options to select your favourite KPI's and edit them on the fly.

REPORTS READILY AVAILABLE

Keep an eye on your maintenance operation and run reports from anywhere at any time! The new MEX App allows you to run a wide number of Maintenance and Stores* Reports so you can track how you are going, whilst on the go!

CUSTOMISE THE APP TO SUIT YOUR NEEDS WITH GOD MODE!

SECURITY IS PRIORITISED WHERE USERS CAN ONLY ACCESS THE AREAS THEY NEED TO!
