

# MEX Data Hosting

## Don't have the capacity to host and maintain your MEX or FleetMEX data?

MEX Data hosting ensures that your data is easily accessible, constantly backed up and stored securely.

MEX and FleetMEX give you plenty of options for installation and hosting. You are able to run MEX from individual computers or tablets through a private network, and online via our Data Hosting service.

When you choose our the MEX Data Hosting service, your data is held in a secure data centre, protected with up to date anti virus and firewall technology.

You'll be able to access MEX through any device that has a reliable internet connection.

By using MEX or FleetMEX online, you can reduce management overheads, save money on infrastructure and increase the security of your data. No IT personnel are required as we manage everything, including your database and the servers that MEX or FleetMEX operate on.

### How much does it cost?

Data Hosting attracts a monthly or annual fee on top of your initial MEX or FleetMEX purchase. The fee is dependent on the number of concurrent users and there is no minimum contract period.

### Version Hosted

All hosted customers are set up with the latest version on the MEX/FleetMEX System, Version 15.

### iOS Connectivity

As part of the setup, the hosted service will also give users access to use the MEX iOS app. Once set up, your users can download the iOS app from the iTunes store and connect your hosted database. Do note that the app will consume one MEX license.

## Some of the benefits you can expect from using Mex or FleetMEX online are:

- ❖ Worldwide access to MEX or FleetMEX
- ❖ Up to date Data Hosting status provided online through the MEX website
- ❖ No investment in hardware or software to run the server
- ❖ Daily backups done as part of the service
- ❖ Uptime in excess of 99.9 %
- ❖ Complete maintenance of hardware and server software
- ❖ Reduce your companies IT management needs

Date	Message	Status
Wednesday, Apr 13 2016 5:46AM	A full server backup has completed	Backup Completed
Wednesday, Apr 13 2016 12:02AM	A full server backup has started	Backup Started
Tuesday, Apr 12 2016 8:00AM	The Server is currently running and operating as anticipated	Online
Monday, Apr 11 2016 8:00AM	The Server is currently running and operating as anticipated	Online

## Connection Speed

MEX and FleetMEX work over any internet connection. However, all of our testing, validation, and performance tuning has been completed on mobile broadband connections. For any user using a dial up connection, performance will be limited. As a minimum we recommend all MEX or FleetMEX users have a broadband internet connection.

## Other benefits include

- Since the data hosting service can be paid for on a monthly basis, there is no commitment and upfront costs are low
- You do not need a crew of personnel to support and maintain in-house application and database servers
- System Monitoring
- Ease of upgrades
- Problem solving / fault finding made easy
